**IMPERIAL CABINET.**  
Alleged Divergence of Opinion Between Chancellor of the Exchequer and His Colleagues.  
(Associated Press.)  
New York, Nov. 19.—Rumors that parliament will meet in the middle of January serve to explain the frequency of the cabinet meetings, says the Tribune's London representative. There will be another one to-day (Tuesday). While the programme of the session contains little beyond drastic proposals amending the rules of the Commons, well-founded rumors of a sharp divergence of opinion between Sir Michael Hicks-Beach and his colleagues respecting his financial policy offer an adequate explanation of the mystery. Lord Londonderry's hollow truce has not been much availed of, but may be patched up again if Sir Michael proves more flexible than he was a fortnight ago, respecting the ways and means of providing for the contingency of the war.

**COLLIDED IN FOG.**  
One Person Killed and Twelve Injured at Chicago To-day.  
(Associated Press.)  
Chicago, Nov. 19.—One person was killed and twelve persons were injured in a rear end collision between two metropolitan elevated trains early to-day. The collision was due to a dense fog. Another collision was reported on the Lake Street "L."

Later in the day news of another fatal collision on the Metropolitan became public. One train was overtaken by another. Otto Leinhardt, the conductor of the first train, remained on the rear platform, frantically waving a signal lantern, while the passengers who had been standing with him, fled inside. His efforts were in vain. He was crushed and died at the hospital several hours later. In all there were nine collisions on elevated structures during the fog.

**THEY FEEL UNEASY.**  
Steps Proposed to Keep Northern Pacific and Great Northern Free From Securities Company.  
(Associated Press.)  
Tacoma, Wn., Nov. 19.—In response to requests and the advice of friends, Gov. Rogers is considering the advisability of calling an extra session of the legislature to take action to prevent the control of the Northern Pacific and Great Northern railways by the International Securities Company. Gov. Rogers is very conservative in matters of this kind and declares he will not take action until the subject shall be considered thoroughly from every standpoint.

**SUGAR TARIFF.**  
Mr. Havemeyer Says Congress Will Remove Duty on Raw Sugar.  
(Associated Press.)  
Chicago, Nov. 19.—"Congress will remove the duty on raw sugar within a year, and the refined product will sell at three cents a pound," said W. A. Havemeyer, the Chicago representative of the American Sugar Refining Co. in an interview in which he discussed the recent extra session of the legislature at Washington to-day. He said that the action of congress would be inevitable.

**NEGRO TO HANG.**  
Has Been Sentenced to Death For Highway Robbery.  
(Associated Press.)  
Birmingham, Ala., Nov. 19.—Will Dorsey, a negro, has been sentenced to hang for highway robbery. The consensus of legal opinion here is that the sentence will establish a precedent which will be the means of bringing order into many settlements in this state hitherto given over to lawlessness.

**VANCOUVER NOTES.**  
(Special to the Times.)  
Vancouver, Nov. 19.—Surveyor Bier returned this morning from Mount Baker district, where he says all the miners have now mutually agreed upon the location of the boundary line according to the recent Canadian survey. He says the roads leading to the mines from the American side are impassable, and that American goods have to be shipped in from Chilliwack.

A shipment of gold, received here from Fort Athabasca, McKenzie River, assayed nearly \$20 to the ounce, being the best value ever handled in the Vancouver office.

**COMPREHENSIVE AND VIGOROUS POLICY**  
**MR. BODWELL GIVES EXPRESSION TO VIEWS**  
Will Accept Nomination for Victoria and Deal with Railway Question and Other Matters.

Late yesterday afternoon a deputation of prominent citizens of Victoria waited on E. V. Bodwell, K.C., and asked him on behalf of a large number of rate-payers to become a candidate in the forthcoming by-election. Mr. Bodwell consented, and will in the near future lay his views on the present issues in British Columbia before the electors at a public meeting.

The deputation consisted of Gordon Hunter, K.C., W. A. Ward, P. C. Macgregor, E. Crow-Baker, T. B. Hall and Ald. Beckwith. The first named introduced the deputation and stated that they had been authorized by a large number of influential citizens to use their names as being favorable to Mr. Bodwell becoming a candidate for the vacancy in the representation of Victoria, and that they considered that he would serve the public interest in doing so.

In reply Mr. Bodwell said he had always declined to take part in politics as a candidate, both for personal and for business reasons, but the present state of affairs was such that he felt that if it was the real wish of a large majority of the electors of the city that he be a candidate, he had no right to refuse. He would not in any way attempt to obtain a nomination, but if they could assure him that it was the practically unresisted desire of the people that he be a candidate that he would give his services.

In reply the deputation assured Mr. Bodwell that he could be perfectly certain of that, and they felt that no time should be lost in announcing his name.

Mr. Bodwell replied that if such a course commended itself to their judgment that they could say for him that if the people of Victoria wanted him to represent them he would do all in his power in their interests as a public man.

With this assurance the deputation withdrew.

Knowing that the views of the candidate would be of the greatest interest to the readers of the Times, a representative of this paper waited on Mr. Bodwell this morning and asked his opinions on the questions now before the people.

In reply he stated that unless the by-election was brought on immediately he would call a public meeting and explain his position in detail.

He continued: "I first want to say that I have no confidence in the present government. And in stating that, I wish to say that I make no personal reflections on any member of that government, or on any supporter of it. But I think they have adopted a wrong policy and have got so committed to it that it is impossible to shake themselves free and follow out a policy in the interests of the country. It is because I feel this that I have no confidence in the administration."

"As I told the deputation that waited on me I have strong views as to the proper policy to be adopted in this country. There are several things that stand out prominently:

- "1. The railway question.
- "2. To arrange the difficulty now existing between the mine owners and the government.
- "3. The position of the lead mines, taken as a whole.
- "4. The fiscal system, which needs entire reorganization.
- "5. The question of the importation of Japanese and Chinese laborers, and a number of other local matters, such as the settlement of the Indian reserve difficulty in Victoria.

"First in regard to the railway question, I believe we ought to adopt a comprehensive scheme and work for the construction of railways on a scale which will best develop the whole country, and to confine our attention to the subsidization of trunk lines of railway. We ought to make up our minds what we can do as a province, and do it. After that there should be a determined agitation in favor of Dominion assistance to all railways which we have assisted, and here will be an advantage of giving public aid to only trunk lines, as we are more apt to get assistance from the Dominion for that kind than for the local or branch lines. Besides, where trunk lines are built, local lines follow. On the other hand the building of trunk lines seldom follow the construction of local ones.

"The roads which I think ought to be subsidized are the Coast-Kootenay, Island Railway, Kamloops & Atlin Railway, which runs north from Ashcroft to Carleton Place, and which, if built now, would serve the new discoveries at Horseshoe, and that portion of the Canadian Northern system now building through the Northwest Territories, and which when completed will extend through British Columbia, practically adopting the route of the British Pacific. This when completed will connect at the north end of Vancouver Island with the extension of the Island Railway, with a branch running from Hazelton to Kitimat Arm.

"There is a necessity for this last

branch, aside from the development of the country through which it runs, in the fact that it gives us an ocean port in the Yukon, and this road is a part of what is essentially an all-Canadian road to the Yukon. It is necessary for the Coast cities that this be built, as otherwise there would be a danger of the Yukon trade being diverted to Astoria, when all the railways now contemplated through the Northwest Territories are completed, and of us being cut out of our share. This could not be done if we had an ocean port in our territory and a direct line of railway to the north. My own idea at present is that the remainder of the all-Canadian line to the north should be a Dominion work, and should be constructed as such.

"Isn't that a large order for a young country?" was asked.

"Yes," was the reply, "in one sense it is, but I have a plan for assisting these roads, which will enable the province to obtain their construction without adding materially to the present taxation, and which would never, in my opinion, become a material burden on the provincial taxpayer. It would take too long to explain this in detail, but at the first opportunity I have of addressing the electors of Victoria I will do so. It may, however, be condensed into this statement, that for the Coast-Kootenay and the Island Railway a cash subsidy will be arranged without the necessity of making a loan on the London market at present, and the other railways will receive land aid in an equally satisfactory manner. When that is done, I believe the Dominion will do their part.

"Referring to the mine owners' dispute, that is a matter which must be arranged. I see no difficulty in coming to a settlement satisfactory to the mine owners and beneficial to the province. The present misunderstanding has created great distress, injured our mines, depreciated our securities and hurt us in every quarter. There is no time now to call each other names or to shoulder the responsibility on the mine owners, or on the government. The only fair and parent to all minds is that there is a difficulty which ought to be arranged, and can be arranged.

"The position of the lead mines ought to be taken up by harmonious action between the Dominion and the local government, and I am fully satisfied that it can be dealt with in that way so as greatly to improve the value of our lead mining properties, make them more productive, and retain for the people living and working here a large proportion of the profit derived from the operation of these properties. They are now being starved to death for the benefit of the lead miners of the United States. This is not right, and the government should set it right at an early date.

"On the Japanese and Chinese question we are all agreed what should be done. Immigration should be restricted, but in my opinion previous attempts have been based on a wrong principle. It is impossible for us to legislate directly or indirectly on the question. The constitution does not permit us to do so. The only effect with, and that is to have in our country to put down those in the position of being compelled to disallow them, and persistence in that course brings about friction between the two governments, which is harmful to us. There is only one way it can be satisfactorily dealt with, and that is to obtain from the Imperial government a modification of the treaties now existing between China and Japan and Britain. The way to do this is to convince the Dominion government of the absolute necessity of the matter. In the present state of affairs there is danger of their considering it rather as a political stalking horse, than as a live question with the people. That idea must be eradicated. Then the plan would be to have the Dominion and provinces represent the case to the Imperial authorities, and I think if Canada made representation on that score the British Foreign office would take the matter up seriously even if Japan and China were not favorable to restricting the emigration of their subjects, which I think they would be for reasons which I will explain later. I have no doubt Britain could make some concessions in that regard and I have no doubt would be glad to do it having regard to the high appreciation which the Mother Country now has for the Canadian Dominion.

"As far as Victoria is concerned, carrying out the line of policy I have suggested will establish her commercial importance beyond all question. I have never had any doubt of the great future of Victoria, and of Vancouver, and I believe if its people will only be alive to their own interests and work together for the accomplishment of the destiny which awaits them.

"There is one matter of strictly local importance which should be settled, and that immediately, namely the Indian reserve. I have the best of reasons for believing the matter requires no delay. It certainly is essential in the interests of the place.

"In conclusion I wish to say that I have announced myself as a candidate knowing that I will accomplish no personal gain or advancement. As a matter of business it will be an absolute necessity to at once sever my professional connection with a great many clients whose visits were very profitable to me; but taking the stand I do in public affairs I can have no further professional relations with them. You can see I would not subject myself to this actual loss if I did not feel a very strong conviction that in the state of affairs now existing in British Columbia there is a public duty resting on the individual, which is higher and more imperative in its demands than personal gain or advancement which he may derive from the pursuit of his ordinary concerns."

**RUMORED DEATH OF VICEROY.**  
(Associated Press.)  
Hongkong, Nov. 19.—An unfounded report is in circulation here that Tao Fu, viceroy of the provinces of Kwang Tung and Kwang Si, is dead.

**TROOPS MARCHING ON INSURGENTS**  
**GOVERNMENT FORCE STARTS FROM PANAMA**

**Colombian Liberals Are Strongly Entrenched and News of a Decisive Battle is Expected.**  
(Associated Press.)  
Colon, Colombia, Nov. 19.—General Albin, with a strong force, consisting of 1,100 men well armed and supplied with ammunition, and having cannon and modern quick-firing guns with them, has started to attack the insurgent forces which are strongly entrenched near Chorrera. Half of Gen. Albin's force left Panama in large launches, towed by the Colombian gunboat Boyaca. The remainder marched overland. These forces are to combine and make a front and rear attack on the insurgents. Chorrera is only one good day's march from Panama. Gen. Castro accompanies Gen. Albin.

Gen. Tugo is in command of the insurgent forces, though Domingo Diaz is virtually at the head of the insurgents. The Liberals say that they possess a force stronger than the government's, but it is generally admitted that the former are indifferently armed and badly supplied with ammunition. News of a decisive government victory is confidently expected.

Gen. Albin's marching orders were kept secret until the moment the troops were ordered to move. A majority of the troops which arrived here Sunday last on board the gunboat General Pinzon will remain at Panama in order to garrison that city.

Castro Responsible.

New York, Nov. 19.—Among the passengers who arrived this morning on the steamer Allegheeny, from Savanilla, was General Diego A. de Castro, special commissioner of Colombia. He says his mission is to purchase war material and to prevent the purchase of such material by the revolutionists. He will go direct to Washington to consult the Colombian minister. General de Castro says that the insurrection has been more insignificant than the reports would seem, adding: "President Castro, of Venezuela, and he only, is the cause of the whole trouble. He has encouraged malcontents in our country to put down those in his own. We have not invaded Venezuela, but the Venezuelans have encroached upon us. Ecuador and Venezuela have combined against us. Now, however, Ecuador has elected a new president who will not encourage such actions."

**THE QUESTION OF A MOUNTED CONTINGENT**  
**Matter Will Be Discussed at a Meeting of Cabinet Ministers at Ottawa To-night.**  
(Special to the Times.)  
Ottawa, Nov. 19.—Dr. Borden, minister of militia, returned to-day hurriedly from Boston, and Sir Wilfrid Laurier will be here to-night, when the question of sending a mounted corps to South Africa will come up for consideration. So far it is not clear what Britain needs, or if anything is really wanted, but Canada will speedily do all that may be required.

Ottawa's Population.

The population of Greater Ottawa, including Hull, is given out by the census department as 82,540.

**THE ELLA IS SAFE.**  
Report That Steamer Was Lost Has Been Denied.  
(Associated Press.)  
New York, Nov. 19.—The Associated Press received a telegram to-day from W. Coyne, of the Dominion Coal Co., Glace Bay, N. S., denying the report that the steamer Ella was lost. The telegram said that the Ella was taking a cargo at Montreal when the report of her loss first started.

**OLD-SPANISH COINS.**  
Treasure Valued at Twelve Thousand Dollars Found by Tuttle Hunters.  
(Associated Press.)  
Kingston, Jamaica, Nov. 19.—It is now ascertained that the treasure found by the Grand Cayman, treasure hunters in October last amounts to \$12,000, in old Spanish gold coins. The money was buried in a cave on the island of Jamaica. It has been sent to Mobile for sale.

**TREASURER SUSPENDED.**  
(Associated Press.)  
Buffalo, N. Y., Nov. 19.—Mayor Ditch has suspended Philip Gust from his office of treasurer of the city of Buffalo, charging him with misconduct in office in keeping inaccurate and false books of account, making it appear that the amount of cash on hand belonging to the city was \$50,000 and upwards in excess of the actual amount of cash on hand.

## MORE SHIPWRECKS AND LOSS OF LIVES

### CASUALTIES ON COAST OF NEWFOUNDLAND

#### Norwegian Steamer Sinks—It Is Feared the Whole of the Crew Were Drowned.

Halifax, Nov. 17.—The terrible gale that has been raging on the Newfoundland coast during the past three days has carried death and destruction in its track. Shipping has suffered severely as a result of the storm, and many lives have been lost.

A private dispatch which reached St. John's, Nfld., to-night, states that the Norwegian steamer *Ellen*, under charter to the Black Diamond line company, has been lost on the Newfoundland coast, in the vicinity of Belle Isle, with all hands.

The steamer left Montreal on Friday with a general cargo for St. John's, Nfld. The *Ellen* was 901 tons register and was built at Sunderland in 1888. This was her last trip of the season, and she carried a crew of about 20 men.

Lashed to Rigging.  
St. John's, Nfld., Nov. 18.—Further details of the suffering of the crew of the barkentine *Titan*, from Liverpool for St. John's, which was wrecked on Saturday morning in a dense fog near Cape Race, have been received here.

During the 36 hours of Saturday and Sunday during which they were lashed to the ship's rigging, the crew were absolutely without clothing excepting their shirts and drawers. Their rescue was effected with great difficulty. Three men from the shore succeeded at the risk of their lives in aiding the shipwrecked men to land.

Boatswain Williams, who was drowned, became impatient at the delay in reaching the shore and drove crazy by his sufferings, plunged into the sea, and tried to swim to land. His lifeless body was thrown high against the cliffs.

Accidents in Fog.  
London, Nov. 18.—Saturday's fog, which was general throughout the United Kingdom, was responsible for many accidents and fatalities. The driver of a London omnibus was found dead in his box while the vehicle was still running. He was a victim of cold fog. Several collisions occurred in the Mersey. The Dominion liner *Romana*, from Liverpool, was run down and sank the *Sapphire* of the Dundee Line. There was no loss of life. A Norwegian brigantine has been seen drifting helplessly off Hull, and it is feared that several persons have been drowned.

Nothing Further Remains to Be Done Until Meeting of United States Senate.  
Washington, Nov. 18.—Nothing more remains to be done by the Pan-American conference today concerning the ratification of the treaty of commerce with the United States. The treaty contained directions conveying rights as to canal construction which are to be replaced by more modern provisions.

There was a particular ceremony connected with the signing of the treaty of the important convention. Lord Pauncefoot had been indisposed for several days past, and it was not expected that the treaty could be signed before the end of the current week. However, to the surprise of the state department officials, the ambassador appeared at the department about noon, and the work of signing the treaty was soon disposed of. The scene was the historic diplomatic chamber of state department, and besides the principals, Secretary Hay and Lord Pauncefoot, there were present Mr. Sidley, chief of the diplomatic bureau of the state department, Mr. Percy Windham, the second secretary of the British embassy, and William Gwynn and Edward Savoy, the secretary of state's private messengers, whose duty it was to attend to the placing of the seals.

ACCIDENTALLY SHOT.  
London, Ont., Nov. 18.—At Delaware this forenoon a youth named George H. Hawes, aged 18, was killed by the accidental discharge of a gun. Merley Forsythe, a young Hanoverian, was hunting together, when Forsythe slipped. At the same time his gun was discharged, the contents entering Hawes' neck, killing him instantly.

The heart beats two strokes a minute less when one is lying down than when in an upright posture.

### NOISY DEPUTIES.

Session of French Chamber was Suspended During Disturbance Yesterday.

Paris, Nov. 18.—An uproarious incident occurred to-day in the chamber of deputies during the discussion of the bill authorizing a loan of 205,000,000 francs in three per cent. perpetual rents, to reimburse the treasury for its outlay as a result of the Chinese expedition, and to pay indemnities to French sufferers in China.

M. Hubbard reported that the budget commission proposed to reduce the amount of the loan to 210,000,000 francs because objection was taken that France should advance indemnities to the religious associations, and financial enterprises. M. Hubbard's report was extremely anti-clerical.

M. Ribot, Republican, in reply to M. Hubbard, protested against his report, which he described as shameful; whereupon M. Bertheux, Socialist, exclaimed that M. Ribot deserved to have his ears boxed. At this the Centreists vehemently protested, while the Socialists cheered.

Amid the din, M. Deschanel, president of the chamber, called upon M. Bertheux to withdraw. This M. Bertheux refused to do, and renewed outcries and banging of desks resulted. M. Deschanel, continuing to bang his bell until the hubbub was subdued, when he asked the chamber to censure M. Bertheux. This was voted.

M. Ribot then resumed his reply to M. Hubbard's report, but the Socialists recommenced their noisy opposition, to which the Centreists responded verbally loud, until the uproar became so deafening and continuous, that M. Deschanel, after vainly clanging his bell and calling for order, left the chair, and the session was suspended. Subsequently the session was resumed, and M. Ribot concluded his speech. The chamber then adjourned.

MONTREAL NOTES.  
Montreal, Nov. 18.—The trial of Thorvald Hansen, the Dane who confessed to having murdered little Eric Marotte in Westmount on the night of October 28th, was postponed till the March term of King's bench, at the request of his counsel, who stated that Hansen was insane, and that he wished to trace his family antecedents in Denmark.

Rev. H. G. Rice, acting pastor of Zion Congregational church, and who received a call to the pastorate of that church a few weeks ago, was stricken with apoplexy on Saturday and is now in the hospital, where he will undergo an operation.

A communication was received at the Dominion W. C. T. U. convention this morning from Lady Henry Somerset, announcing that the next world's W. C. T. U. convention will be held at Ottawa. The election of officers resulted as follows: President, Mrs. Rutherford, Toronto; vice-president, Miss Donnell, Montreal; corresponding secretary, Mrs. Beeson, Toronto; recording secretary, Mrs. McLachlan, Montreal; treasurer, Mrs. Odell, Ottawa.

ORGAN FACTORY BURNED.  
Clinton, Ont., Nov. 18.—Doherty's organ factory was damaged by fire on Saturday night. The loss is covered by insurance. Two or three hundred employees will be idle until the factory is rebuilt.

Cheshire cheese owes its excellence partly to geographical position, the red sandstone and hard clay, with its honeycomb deposits, of which the country is formed; producing an herbage peculiarly suited to cheese production.

It is in anticipation of this action, it is presumed that the Canadian government only recently denounced the treaty of trade and commerce with the United States. This treaty contained directions conveying rights as to canal construction which are to be replaced by more modern provisions.

There was a particular ceremony connected with the signing of the treaty of the important convention. Lord Pauncefoot had been indisposed for several days past, and it was not expected that the treaty could be signed before the end of the current week. However, to the surprise of the state department officials, the ambassador appeared at the department about noon, and the work of signing the treaty was soon disposed of. The scene was the historic diplomatic chamber of state department, and besides the principals, Secretary Hay and Lord Pauncefoot, there were present Mr. Sidley, chief of the diplomatic bureau of the state department, Mr. Percy Windham, the second secretary of the British embassy, and William Gwynn and Edward Savoy, the secretary of state's private messengers, whose duty it was to attend to the placing of the seals.

However, to the surprise of the state department officials, the ambassador appeared at the department about noon, and the work of signing the treaty was soon disposed of. The scene was the historic diplomatic chamber of state department, and besides the principals, Secretary Hay and Lord Pauncefoot, there were present Mr. Sidley, chief of the diplomatic bureau of the state department, Mr. Percy Windham, the second secretary of the British embassy, and William Gwynn and Edward Savoy, the secretary of state's private messengers, whose duty it was to attend to the placing of the seals.

ACCIDENTALLY SHOT.  
London, Ont., Nov. 18.—At Delaware this forenoon a youth named George H. Hawes, aged 18, was killed by the accidental discharge of a gun. Merley Forsythe, a young Hanoverian, was hunting together, when Forsythe slipped. At the same time his gun was discharged, the contents entering Hawes' neck, killing him instantly.

The heart beats two strokes a minute less when one is lying down than when in an upright posture.

The sluggish liver can be cured by the use of Dr. Pierce's Pleasant Pellets.

It is in anticipation of this action, it is presumed that the Canadian government only recently denounced the treaty of trade and commerce with the United States. This treaty contained directions conveying rights as to canal construction which are to be replaced by more modern provisions.

There was a particular ceremony connected with the signing of the treaty of the important convention. Lord Pauncefoot had been indisposed for several days past, and it was not expected that the treaty could be signed before the end of the current week. However, to the surprise of the state department officials, the ambassador appeared at the department about noon, and the work of signing the treaty was soon disposed of. The scene was the historic diplomatic chamber of state department, and besides the principals, Secretary Hay and Lord Pauncefoot, there were present Mr. Sidley, chief of the diplomatic bureau of the state department, Mr. Percy Windham, the second secretary of the British embassy, and William Gwynn and Edward Savoy, the secretary of state's private messengers, whose duty it was to attend to the placing of the seals.

Nothing Further Remains to Be Done Until Meeting of United States Senate.

Washington, Nov. 18.—Nothing more remains to be done by the Pan-American conference today concerning the ratification of the treaty of commerce with the United States. The treaty contained directions conveying rights as to canal construction which are to be replaced by more modern provisions.

There was a particular ceremony connected with the signing of the treaty of the important convention. Lord Pauncefoot had been indisposed for several days past, and it was not expected that the treaty could be signed before the end of the current week. ### KITCHENER'S REPORT.

Forty-Three Boats Killed and Over One Hundred Wounded Since November Seventh.

London, Nov. 18.—Lord Kitchener, calling to-day to the war office from Pretoria, reports that since November 7th the British command has killed 43 boats and wounded 169 Boers, and that 297 have been taken prisoners.

In a letter conveying an impression of his thanks for a vote of confidence in the policy of the government, Lord Kitchener administers the following characteristic rebuke to pro-Boers in Great Britain: "We need such encouragement for England. I believe, the only country in which during a great war eminent men write and speak publicly as if they belonged to the enemy."

An extraordinary demonstration of pro-Boerism is reported by a Brussels newspaper. It seems that a Dutch fishing boat belonging to Yumdon, wife of Wellington Hightop, in the North Sea, pretended to be in distress and approached a British boat. The British boat boarded the Dutch boat and attacked the crew of the latter, shouting "Long live the Boers!" Several of the Britishers were wounded. It is alleged that before making the attack the Dutchmen locked their captain in his cabin. The British boat succeeded in escaping and arrived at Ostend, where the captain lodged a complaint with the British consul.

Canadian Wounded.  
Ottawa, Nov. 18.—The casualty department, Capetown, in a cable reports that the John Hall, one of Kitchener's sailing vessels, of Montreal, was wounded at Two-foot on November 14th.

TRANSPORTATION OF MAILS.  
Washington, Nov. 18.—Postmaster-General Mulock, Canada, conferred with Postmaster-General Charles Emery Smith and Assistant Postmaster General Schellenberger to-day on the proposed improvement in the mail facilities between Canada and the United States, principally regarding those transportation routes which cross the Canadian territory. Arrangements have been effected under which Canada will take charge of the transportation of the United States mails across Canadian territory for Alaska after July 1st next.

BRIEF TELEGRAMS.  
Owing to the very strict censorship maintained in Venezuela, it is impossible to learn details of the Venezuelan-Colombian armistice.

A London dispatch says Mrs. Victoria Woodhull Martin announces that the *Humanitarian Magazine* will be published with this December number. News from Hardin county, Texas, to-day confirms the report that a well of oil has been struck in there that flows one hundred and fifty barrels per day. The new well is about 30 miles northwest of Beaumont.

The Dresden municipal council will hold an extra meeting to-day to protest against the speech of Joseph Chamberlain, the British colonial secretary, at Edinburgh. This protest will be noteworthy as the first official action in this direction.

There is great excitement among the Indians on the head waters of the Eagle river in the northern part of Marinette county, Wis., over the disappearance of one of the tribe, who has been missing for a week. The Indians claim he was killed by white hunters, and shot him by mistake, taking him for a deer.

Emperor William, during the debate yesterday of the Society of Naval Engineers, said he believed that the types of vessels now being launched in Germany yards also represented the very best needed for the purposes of the navy, or that could be designed from the splendid constructors and magnificent yards of Germany.

The Hungarian premier, M. Deszeli, during the course of a debate yesterday, said that the triple alliance guaranteed to all three states party thereto such a measure of security as no other alliance could give. Although Great Britain owing to her traditions was not a party to this agreement, nevertheless she leaned toward the alliance, and Austria-Hungary could act in accord with Russia regarding the Balkan states.

THE WOOD MACHINE.  
It Will Become Obsolete Under the Provisions of the New By-law.

The by-law to amend the streets by-law, which is before the council, will make a radical change in the present system of sawing wood upon the public streets of the city. It provides that no one shall cut wood upon any of the streets or sidewalks. Wood will not be allowed to remain on the street longer than one hour, nor shall it be deposited in front of the premises of any person, not the purchaser, without his or her consent. The usual provisions are also inserted to prevent rubbish in the form of chips, bark, dust, etc., remaining on the street or sidewalk.

Regarding machines, the by-law provides that no steam or other engine, or motor, or any other machine, or other means, shall stand or remain upon the streets for the purpose of being worked thereon. Police officers are empowered to take into custody anyone assisting in working such a machine. The section does not apply to corporation machines.

### GREAT BELT OF RICH ORE AT WHITE HORSE

Victorian Speaks Highly of District and Tells of Belated Passengers' Experiences at Skagway.

D. Stevens, one of the belated passengers at Skagway for Victoria a few weeks ago, has returned from the North by way of Seattle. He came down on the steamer *Dolphin* to that city, after having waited at the Lynn canal port with many others bound for Victoria for over a week on the steamer *Danube*. That vessel was advertised to sail on Tuesday the 5th, but did not arrive, and on Saturday following the steamer *City of Seattle* came in bringing word that she was not coming at all. The agent at Skagway then notified them that the *Amur* would be in the following Tuesday. On Sunday, however, the *Dolphin*, of the Alaska Steamship Company's fleet, reached port with the information that the *Amur* would not be in until the 15th. By this time the Victoria passengers had grown weary of waiting, and decided to come down on the *Dolphin*, although this trip involved the additional expenditure of travelling from Seattle to Victoria. Mr. Stevens says that if the *Danube* had arrived according to schedule she would have received from 150 to 200 passengers, many of whom would have been transferred to the *Amur*, had that vessel been transferred to the *Amur*. The passengers had been paying from \$3 per day upward for board, and the *Amur* at Skagway therefore meant a considerable loss to them. Of course when it was found that the *Amur* would not arrive until the 15th the agent of the ship refunded the transportation money.

Mr. Stevens is one of the many who deplored having to come down on an American steamer, and he expresses surprise at there not having been a Canadian steamer at Skagway from the 29th of October to the 15th or 16th of November. He says that he has actually seen the merchants of Canadian cities experience.

Speaking of the marvellous wealth at White Horse he stated that there is a upper belt east of the town about 15 miles long, and that the ore is of the best quality, and which over 100 claims have been represented this year. From this immense property some few samples of ore have been shipped. There has been some development work done on the Copper King, Grafton and Best Chance, but next to nothing has been done on the country making radical speeches on the lines of Gladstone's. These five paragraphs appeared in a letter of Mr. Angus's, which you published yesterday, and although an editor is not to be held responsible for the opinions of his correspondents, I sincerely hope that in the interests of truth you will express your regret for having printed it. Everyone who has the least acquaintance with the Church of England of course knows that Dr. Temple is the present Archbishop of Canterbury. Dr. Benson entered into his office less than five years ago, and this winter he was elected to the office of the Copper King, the consideration in this transaction being \$150,000, and the contracting parties are Dawsonites who recently went through to the Yukon metropolis. Mr. Stevens states that a person not having seen the immense mine, and not having seen the mine, would believe that such wealth is there to be found. What is required is capital, and the erection of a smelter or two for the development of the country. Cheap transportation is required, but in this the White Pass & Yukon Railway Co. is fortunate. The *Amur* has been found in the vicinity, but has not yet been leased.

PLEASING COMEDY.  
Daniel Frawley & Company gave highly satisfactory performance at the Victoria—Coming Attractions.

Daniel Frawley & Company were warmly welcomed on their return to Victoria last night. The Victoria theatre was well filled, and the show-act comedy, "Lord and Lady Algy," of which R. C. Cartor is author, met the approbation of the house. Mr. Frawley appeared in the role of Lord Algy, while the companion part was very cleverly taken by Miss Van Buren. A strong company supported, and the result was a finished and able production, fraught with clean and irresistible amusement. The personnel of Mr. Frawley's company has changed little since his visit here some months ago. Miss Van Buren was not here then, but she has been on former occasions. Miss Pearl Lambers, however, is not seen with the aggregation, but she is one of the very few absentees.

The stage scenery of the play is very effective and pretty, while beautiful costumes add greatly to the interest and serenity of the performance. The plot calls for many ridiculous and almost startling situations connected with the sporting life of Lord and Lady Algy, both of whom were prone to gambling, and particularly on horse racing. Although man and wife they become separated for a time, but neither regard another's relations seriously, and the climax in the reunion is reached in the last act, where Lord Algy is driven to dire circumstances owing to losing heavily on a race, only to find that Lady Algy comes to his rescue with a fortune won and prevents a calamity happening.

The scenery in the first and third acts is that of Lord Algy's flat in Piccadilly, while that in the second act represents the corridor outside a ball room. Lord Algy appears in a state of inebriety and is accused by the host of deceiving his wife from home. Miss Blanche Douglas impersonated this character, her beautiful gowns and charming appearance and her repugnance for food or anything suggestive of discomfort in her tight-fitting apparel, being all features in a role that was admirably filled.

Miss Van Buren in repartees and wit and fine stage appearance was all that one could desire, her work being all of that breezy character extremely becoming to her part.

Mr. Frawley as Lord Algy was very effective, his meditative, indifferent and stolid acting being of a kind peculiarly his own. Harrington Reynolds's suave mannerisms were also seen to advantage, while H. S. Duffield, in the role of the Duke of Donerburgh, the old man continually in parody, Wallace Shaw, the jealous husband, and J. R. Amory, Lord Algy's valet, portrayed their parts with ability and cleverness.

Attraction for To-morrow.  
When "The Cowboy and the Lady" was first produced in New York it raised to a point of enthusiasm for its delightful unconventionalities, breeziness, humor and stirring climaxes, so a rare dramatic treat may be expected to-morrow evening, when S. Miller Kent will present this brilliant play at the Victoria theatre.

The scenes are laid in Colorado and the characters are interestingly diversified. There is no lack of the comic element, and brilliant flashes of wit illumine the dialogue, while the strong dramatic scenes hold the audience spellbound and call for acting of a high order. The excellent company that surrounds Mr. Kent may be relied on for splendid support, and the clever young star was never better suited to a character than he is to the role of Teddy North, the gentleman cowboy.

"Rip Van Winkle."  
Nowadays when a son of one of our great actors is advertised to appear in his father's plays, the public are apt to become suspicious as to the ability of the son to follow in the footsteps of the father. Such has not been the case with Thomas Jefferson, who has been presenting "Rip Van Winkle" for the past three seasons. He is said to have actually fallen in his father's shoes, and there are times on the stage when his audience really think the elder Jefferson is before them. Thomas is to be here on Thursday evening at the Victoria theatre and will present that delightful comedy entitled "Rip Van Winkle."

MR. ANGUS'S MISTAKE.  
To the Editor:—"Dr. Benson, the present Archbishop of Canterbury, was appointed by Mr. Gladstone for going about the country making radical speeches on the lines of Gladstone's." These five paragraphs appeared in a letter of Mr. Angus's, which you published yesterday, and although an editor is not to be held responsible for the opinions of his correspondents, I sincerely hope that in the interests of truth you will express your regret for having printed it. ### A VEXED QUESTION AGAIN DISCUSSED

#### ALDERMEN WILL NOT RECONSIDER TENDERS

#### Settlement of Craigflower Road Diffi- culty Seems to Be Approaching— Renaming of City Streets.

At last night's meeting of the city council the attempt to have the bridge tenders re-opened failed. The majority of the council held that the tenders in question had not been regular, inasmuch as they had not been mailed in the time specified, and therefore could not be entertained.

Another matter which was finally disposed of was the Craigflower road dispute, which was practically disposed of by the adoption of the report of the committee appointed to deal with that matter.

A communication was read from Crease & Crease asking permission for one of the Chinese merchants for the erection of a platform in front of his premises and also in the alley leading to the Chinese theatre, and to hang Chinese lanterns. These would be required for a Chinese festival from November 25th to December 1st. Permission was granted, subject to the engineer's approval.

Jas. R. Revett, wrote regarding the tender of his company, the Albion Iron Works, explaining some features of the tender.

Ald. Cooley moved that it be received and filed.

Ald. Yates asked the purport of the communication. If it added to or detracted from the tender it should not be received.

Ald. Beckwith suggested that it be filed until the tenders of the company be reached, and Ald. Kinsman suggested that it be referred to the city engineer.

Ald. Cooley asked why waste time over the matter. If the city had \$147,000 to throw away all right, but he understood they had only \$65,000.

The city engineer explained that it would not alter the tender. The mayor added that the council had allowed the Puget Sound Bridge company a whole afternoon to explain their plans, which they could therefore scarcely refuse the letter of explanation.

The letter was received and laid on the table.

The B. C. Electric Railway company wrote as follows:  
To the Mayor and Council of the City of Victoria:  
Gentlemen:—In that we are very much interested to have a good substantial steel bridge constructed at Point Ellice, and have agreed to contribute one-fourth the cost, we must not to exceed \$20,000, we consider that we are entitled to call attention, which we respectfully do, to the non-receipt of certain tenders, being two tenders from Eastern Canadian firms, and the supplementary tender from the Albion Iron Works, of this city.

It is not for us, of course, to say what should be the procedure of your honorable body in this matter, but we venture to respectfully suggest that if you find the facts to be that tenders were delayed in transit, or were made without any previous knowledge of other tenders, that then, in fairness to ourselves as well as all the ratepayers, the tenders should be opened.

We would therefore respectfully suggest that your honorable body, being satisfied of the regularity of the tenders—and we do not think for a moment any objection save that of being out of time can be set up—would reconsider your decision and decide that all tenders should be looked at.

We trust the suggestion will be taken in the spirit it is intended, not in the way of complaint against your honorable body, but in the way of a desire to propose some method of procedure that will be satisfactory to all concerned.

British Columbia Electric Railway Co., Ltd.,

ALBERT T. GOWARD,  
Local Manager.

The letter lay on the table pending the consideration of Ald. Kinsman's motion of re-consideration of the tenders.

The same company wrote regarding block paving of Government street, as follows:  
Mayor and Corporation, City of Victoria:  
Re Block Paving of Government St.

Gentlemen:—In further reference to the interview between your honorable body and ourselves, at which interview our company was asked what the probable cost of taking up the present track on Government street, from the south side of Johnson street to the north side of Courtney street, and relaying the same with rails and special work suitable for the proposed block paving.

"Our engineers have now gone into the matter, and estimate the proposed work will cost in the neighborhood of four thousand and eight hundred dollars.

I may add that when Government street was double tracked by our company some four years ago, the cost, including rails, was a little over \$8,000.

In respect to the old track belonging to our company in the outlying districts, I

take much pleasure in informing you that an order has already been placed for 450 tons of 50-lb. "T" rails, the same to be delivered in Victoria early in the coming spring. Immediately on receipt of these rails the work of replacing the old track with permanent up-to-date construction will commence, and will be pushed through to completion with all speed.

ALBERT T. GOWARD,  
Local Manager.

Referred to streets, bridges and sewers committee.

be appointed to report upon this matter at an early date.

Referred to streets, sewers and bridges committee.

A petition was received from S. Hector Darleigh and others asking for a drain to prevent the flooding of certain property in James Bay. Referred to city engineer for report.

C. Brown and others asked for a light at the corner of Battery street and Beacon Hill park, also a sidewalk. Referred to electric light committee and to the city engineer.

John Haggerty asked permission to supply clean sheep sand instead of beach sand, as required by his contract. Referred to city engineer and solicitor for report.

The electric light committee reported as follows:  
Gentlemen:—Your electric light committee having considered the under mentioned petitions for additional street lights, we recommend that lamps be installed at the following points: One at corner of Bay street and Rock Bay avenue; one at corner of Tremaine avenue and Seaside road; one at corner of Fort and John streets; one at corner of North Chatham and Chambers streets; one on Craigflower road (near tramway residence). The cost of installing will be approximately \$30 per lamp. We also recommend that all scrap metal, etc., at lighting stations be disposed of.

The special committee on street naming submitted their report as follows:  
To His Worship the Mayor and Board of Aldermen:  
Gentlemen:—Your special committee have

First street, block 25, near Jubilee hospital, similar streets, Work Estate, Vigfus street.

Second street to McGregor street.

Third street to Wilson street.

Fourth street to Phillips street.

Fifth street to Bragg street.

Belcher street, near Belcher avenue, to Rockland avenue.

George street, end of Chambers, to Chambers street.

George street, easterly from Moss, to McCandless street.

Myrtle street, Oakland estate, to Drake street.

Frederick street, Victoria West, to Dalby street.

James street, Victoria West, to Trimble street.

Elford street, Foul Bay, to Macdonald street.

Lewis street, from Dallas road, to Harris street.

Leola street, south from Fairfield, to Humber street.

North Turner street to Hall street.

Princess street, from Michigan, to Cooley street.

Bay street, Line Bay, Victoria West, to Derridge street.

Ray Terrace, West Bay, Victoria West, to Tarka street.

Adelaide street, Lansdowne road and Hamilton road, to Styles street.

Oak street to Glover street.

Realty street, Labouchere street, same line, to Fairfield road.

Franklin street, see Collison, to Callison street.

Cook street to Queen Victoria avenue.

Crescent road to Renouf street.

Constance avenue, Victoria West, to Munn street.

King's road to York street.

Fourth street, Work Estate, to Quadra street.

Second street, Work Estate, to Blanchard street.

Alderman W. G. Cameron, Victoria, B. C.:

Dear Sir:—Re our conversation on street numbering: As it is proposed to consolidate the duplicate streets, I would suggest that a system of house numbering be adopted so that any person could easily find a given number or street.

I understand that the corporation have no money at their disposal to carry out the work this year. I would suggest that should you adopt a plan of numbering at least two streets be numbered when the plan is adopted—one running from harbor to Oak Bay, say, Fort street and Cadboro Bay road, and one from the Dallas road to the city limits north, say Cook street, but Menzies to Belleville and Government to city limits, on Seaside road, would be better.

By allowing about 25 feet to each number and making the even hundreds end at a through street, if possible, starting with No. 1 on Fort street, 500 at Quadra, 1,000 at Fernwood road, and so on, to Oak Bay, bringing the even hundreds at prominent corners, the same from the Dallas road to James Bay, say, 400, Fort 600, the Pong-tain 1,000. All consolidated streets would be numbered by this system, and take their number from the through streets.

As very few of the streets in the suburbs have the names put up, they would be much easier found, as the number would indicate where they started. The house numbers could be prefixed in the City Directory by S for James Bay district, and W for Victoria West.

If you think favorably of the plan, I

Ald. Kinsman added that the city did not want the road, and hadn't money to spend on it.

The report was adopted. Ald. Cameron, Kinsman and Hall voting "nay."

Ald. Kinsman's motion, recommending the re-consideration of the bridge tenders was not reached. The mover said the tenders should be opened. He had two envelopes, one from Montreal and one from Toronto, dated November 11th. One got here on the 15th and the other on the 17th. The citizens wanted the tenders opened. He added that the council was not bound to accept any of the tenders, even if they did open them. In doing this the city might save \$20,000.

Ald. Yates thought in a business man it would be unpardonable to receive other tenders after a number had been opened.

Ald. Stewart held that the tender was not delayed in H. M. mail. They were mailed a day late.

Ald. Beckwith referred to a statement in A. T. Goward's letter that these tenders were "delayed in transit." This was not correct.

The Mayor:—This is a serious matter. If you refuse to reconsider the matter you say you don't want the area of competition or the number of designs enlarged.

Ald. Brydon resented this. It was merely whether or not the business of the council was to be conducted on business lines.

Ald. Cameron thought the matter was of sufficient importance to warrant re-consideration. By excluding the tenders in dispute the council was practically limited to one tender. Why should the

letter of Mr. Goward be considered and the writer informed that the Hamilton bridge tender was not delayed in transit. The council found that the tender was not mailed in time to reach here under the specified limit. He had made inquiries from the C.P.R. and found this to be the case. The council would be making a very great mistake to deviate from its rule of considering only those which came in in the specified limit. He moved that Mr. Goward be informed that the council does not consider it in the interests of the city to open tenders not received in the specified time.

Ald. Stewart seconded the motion. The whole agitation in his opinion was generated because of a misconception of the reasons for the council's failing to open these tenders.

Ald. Kinsman said it was funny that it took six days for a letter to come, on some occasions, while on others it took only four days. He produced envelopes which showed a letter posted in Montreal November 11th, reaching Victoria on the 15th.

Ald. Brydon criticized Mr. Goward's business acumen as displayed in the letter.

His Worship said that it must be remembered that the tramway company must approve of the plans and price of the bridge before contributing.

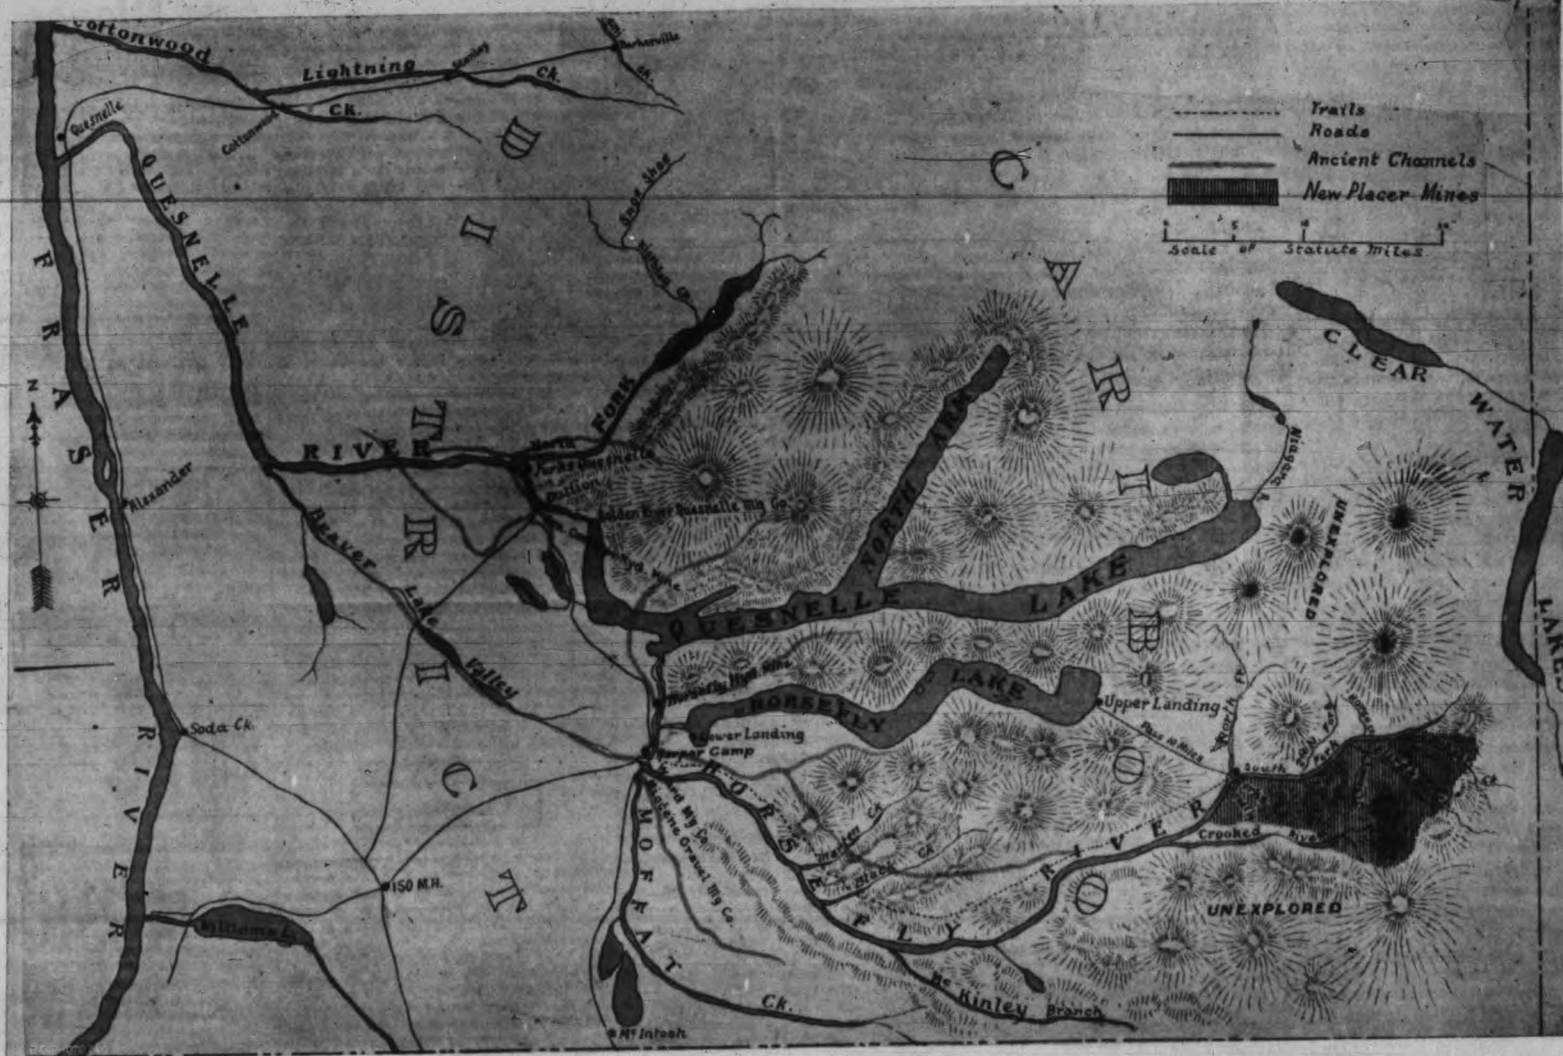

This view was not held by the aldermen, and the motion of Ald. Beckwith was carried on the same vote as before.

Leave was granted to introduce a by-law to amend the street by-law with relation to street paving. It was read a first time.

The by-law relating to the matter of elections was reconsidered and finally passed.

The council then adjourned.

## THE HORSEFLY PLACER DIGGINGS.

### PLAN OF THE NEW DISCOVERIES IN CARIBOO DISTRICT.

THE SCENE OF THE RECENTLY FOUND FIELDS IS INDICATED BY THE HEAVY SHADING IN THE RIGHT HAND CORNER OF THE MAP.

It has been said, and many believed, that the Cariboo district in British Columbia, so famous for its gold gravels, has been practically exhausted, and that there is no more gold worth looking after there. Nothing could be more absurd to one acquainted with the conditions that actually exist in British Columbia.

There is known to exist in the Cariboo district a system of these ancient or dead river channels equally as ex-

tensive as those of California. Recent developments have proved this to be the case. Beyond all doubt but capital is required to open them and place them on a producing basis. The conditions existing in Cariboo make it necessary to open them as drift mines, but when capital and skillful mining engineering is brought to bear, old Cariboo will again become noted as a gold producer.

The new discoveries on the head waters of the Horsefly is certain to at-

tract prospectors who will thoroughly explore and protect the country, and there can be little doubt that many shallow creeks will be found that will give the poor man a chance, and will lead to the further development of the deeper deposits in due course. Railroads will prospectors will go into Cariboo in early spring.

The seasons are fully six months long, and the country is not difficult of access.

Timber and water are both plentiful, but it will not be advisable to go in before May or June. As yet there are no trails cut out, and the snow will prevent the government from making roads and trails until the snow melts.

The best and perhaps the only way to get into the Horsefly country is from Ashcroft, over the old Cariboo wagon road to Harper camp, about 100 miles, thence up the Horsefly river, about 65 miles by trail or over the Horsefly lake

and trail. The latter seems to be the most feasible.

There are good road houses all along as far as Harper camp, where good accommodations can be had, also supplies of all kinds, so that parties going in can secure all that is required for such a trip before leaving Harper camp.

The above map, which is a copy of that brought out by the Ashcroft Journal, gives a good idea of the geography of the country.

Colville road, from Craigflower road, to Baker street.

Esquimalt street, old Esquimalt road, same line, to Navy road.

Retenard street, from Esquimalt road, to Humbler street.

St. Johns street, from Kingston street, to Bedford street.

Langley avenue to Kitchener street.

North Chatham street to Brydon street.

North Pandora street to Stewart street.

Richmond road, Mount Toinie road, same line, to Richmond avenue.

William street, Victoria West, to Humphrey street.

Queen's avenue to Finlayson street.

Having the Longest Staying Powers.

It is a good thing to know how to feed food that will so thoroughly feed and nourish the body that there is no indication of hunger or faintness from one meal to another.

Grape-Nuts Food will carry the user longer, probably, than any other food known. A young lady attending business college writes from Atlanta, Ga., saying, "Before I began using Grape-Nuts I got so hungry before the dinner hour that I was faint and almost sick, but since I have Grape-Nuts Food for breakfast I study harder, and wait longer for my dinner without experiencing any of the former trouble."

One great advantage is that it requires no cooking or preparation. I wish every one knew of the value of Grape-Nuts Food for children in school." I, Parkhurst,

would suggest that you have the system marked on a city map.

Yours truly,

JAS. HENDERSON.

Ald. Cameron, in moving the adoption of the report, said about sixty changes were suggested. These and the reasons for them could be explained in committee. Report adopted.

The special committee appointed to interview those whose property abutted on Craigflower road, reported that the property owners along that road would accept the following for their properties: R. Hall, \$1,000 (five lots); Thos. Shotbolt, \$125; M. E. Blaquiere, \$200; G. B. Adams, \$250; T. Redding, \$50; C. W. Westwood, \$200; Thornton Fell, \$150; Mrs. Ellison, \$650 and cost of moving house to adjacent lot.

Ald. Yates said the committee's task had been pleasant than anticipated. They had been well received by all the owners. Mr. Hall was seen first and the figure he set was made a standard for the rest. The adoption of the report would settle this vexed question. The people of Victoria West were entitled to some money, as they had spent their own money because of the actions of preceding councils.

Ald. Stewart asked if it was necessary to pay this year. Ald. Yates said he thought he saw a way in which it could be provided for.

Ald. Cameron said he didn't think this would settle the question. There were a good many who thought it unnecessary to buy this road. The general public didn't want the road, and the city had no money to fritter away in such a scheme.

council be afraid to open the Canadian tenders? They were not bound to accept any particular tender.

Ald. Stewart said there had been late tenders in connection with the cause-way and had not been accepted. Why make an exception in the case of the bridge?

Ald. Cameron:—They were local tenders.

The motion to reconsider was lost on the following vote:

Ayes—Ald. Kinsman, Williams, Cameron and His Worship the Mayor.

Nays—Ald. Beckwith, Brydon, Stewart, Yates, Cooley and Hall.

Ald. Beckwith then suggested that the

DISPENSING CHEMISTS, Clarence Block, Cor. Yates and Douglas Sts.

The Independent Labor Party will meet on Thursday evening next in the William block.

Great Clearance Sale of Ladies' and Children's Jackets, Gossamers and Costumes, at "The Sterling," 39 Government Street.

To-morrow evening members of the Boys' Brigade football team will hold a paper chase. The boys will meet at the hall, James Bay, and the chase will start from that point. All members are requested to be on hand.

The farewell dance of No. 19 Co., W. D. K. G. A., before proceeding to China, will be held at Work Point barracks on Friday evening, the 22nd inst. Guests are cordially invited to attend. Dancing will continue till 2 o'clock a.m.

Owing to the birthday of Her Majesty Queen Alexandra falling this year on a Sunday, the usual royal salute will be fired the following day, Monday, 2nd December, by His Majesty's ships and the garrison at Work Point. Her Majesty will be fifty-seven years of age on December 1st.

A Lockwood, representing the Pacific Coast company, is in the city en route to the West Coast, where he will superintend the construction of the new wharves and other structures to be erected at the landing site. He will, it is expected, leave here on the Queen City to-morrow night.

The Epworth League of the Metropolitan Methodist church held their monthly literary meeting last night. Mrs. Chapman, as representative of the Women's Missionary Society, addressed the meeting, speaking briefly of the birth and some points of interest in the history of that society. After this a letter was read from the Rev. W. H. Pierce, the Indian missionary up north, whom the league helps to support. A business meeting was held at the close.

The James Bay Epworth League held their monthly missionary meeting last evening, the lecture, being given by the Rev. Mr. Tait, of Victoria West, delivered an interesting and instructive address on Temperance, bearing chiefly on the city of Victoria. Mr. Tait has had considerable experience in the temperance work, both in the Old Country and in Canada, and little incidents in his personal experience, together with the earnest delivery of his address, held his audience spell bound from beginning to end.

Active preparations are going forward at the Assembly hall, Fort Street, for the annual Jubilee hospital ball to be held on Thursday, November 28th, with a Cinderella on the following evening for the children. This morning a gang of workmen were employed in renovating the hall, and already it begins to assume a gala appearance. Offers of assistance in the way of contributing flowers, evergreens, red and white berries and holly for the decoration of the hall are solicited. A member of the committee will be found every day at the hall between the hours of 10 a.m. and 4 p.m. Contributions will also be required for the supper and refreshment room. Members and regular contributors will receive notices, but the public generally is also requested to aid.

That the path of the provident and thrifty who aspire to become their own landlords should be rendered as smooth and easy as practicable, to enable them to attain so excellent an object, there is no gainsaying. And Loan and Savings Companies whose aim is to foster that laudable bent, display a short-sighted policy if they neglect to afford any of the means which facilitate its accomplishment. Greater certainty in repayment, with less inconvenience to the borrowers, should be their catch-words. The management of co-operative Loan and Savings Companies should endeavor to eliminate all objectionable features in their plans and thereby help and encourage the thrifty man who is not only anxious to secure a home but is also anxious to pay off the encumbrance in the shortest possible time, he should therefore be allowed the privilege of paying back the loan as rapidly as possible. The loaning plan of the B. C. Permanent Loan and Savings Company, of 321 Cambie street, Vancouver, meets these requirements in a greater degree than the plans of any other company in Canada.

A deputation of residents of Coquitlam and other municipalities on the lower Mainland yesterday interviewed the government opposing the application being made for water rights on Coquitlam lake and river by the B. C. Electric Railway Company, alleging that the water is required for domestic use.

The opening of the mock parliament conducted by the Victoria Debating Society takes place this evening in the schoolroom of St. Andrew's church. The speech from the throne, which was partially read at the last meeting of the society, will be considered, and the government and opposition forces will meet in debate upon the merits of that document. The government consists of the following: Premier and minister of finance, A. F. Welby Solomon; minister of justice, J. H. Lawson, Jr.; minister of railways, P. W. Davey; minister of the interior, G. D. R. Black; secretary of state, S. Prims. The opposition is led by E. O. S. Scholefield, who has the support of Messrs. Allan, Lorne, Corbett and Wilson.

—The decoration placed on the Nelson column by the B. C. branch of the Navy League on the anniversary of glorious Trafalgar (October 21st) was from the design of L. J. Seymour.

### SKAGWAY STORY IS

## NOT ALTOGETHER FAKE

Fenian Machinations in the North Disclosed in Flag Incident and in Other Ways.

Parties recently from the North confirm statements appearing in the San Francisco dispatch of last evening, in so far as that Inspector Morrison arrived from White Horse on the evening of the 5th and held a consultation with the United States officers at Skagway. It appears to be generally accepted as a fact that some mischief was brewing, and it is attributed to the machinations of a Fenian Centre, with its local headquarters at Skagway, but in direct affiliation with the head centres of New York and Chicago.

The leaders of this local centre are very well known to the authorities, and have been watched for some time in connection with their workings among the local populace, and their communications with the head centres. The exceedingly mean and hostile spirit which prevails in Skagway towards everything Canadian and British is said to be largely due to the plotting of this local centre. Recent insults to the British flag, culminating in the actual tearing of it down by the mob on one occasion, as well as certain well carried out plots to bring Canadian officials into disgrace, are all traceable to the same gang.

The informant of the Times avers positively that the report is not all fake and humbug, that the watchful officials of our government know it is not, and that our country now and always stands in need of great alertness and preparation.

### LEGAL NEWS.

## REGULATIONS FOR EPIDEMIC DISEASE

### STRICT MEASURES TO CHECK ITS SPREAD

New Provisions Approved by the Governor-in-Council in Regard to Smallpox and Tuberculosis.

The following regulations in regard to smallpox and tuberculosis have been promulgated in the Gazette addressed to the Medical Health Officers and others charged with the management of the outbreaks of those diseases in the province.

Upon discovery of the existence of smallpox, or of persons who have been exposed to smallpox, act quickly. Investigate at once all rumors or reports of infection.

The powers given by the "Health Act" are ample in almost any contingency. The duty of the local board is to act promptly. No time should be wasted in an endeavor to obtain the consent or approval of the municipal officers, or of anyone else.

Your municipality, or whoever may be responsible, will be obliged to pay all reasonable charges, and the more promptly you act the smaller the bills will be.

If any person breaks quarantine, violates the provisions of the health laws, or interferes with the work of the duly appointed officers, have him arrested at once. If infectious, he should be held until he can be disinfected and brought before a magistrate.

Suspects, or Exposed Persons.

Trace out, as speedily as possible, every person who has been exposed to the infection of smallpox. Make a note of the date of exposure. When located, vaccinate every such person as soon as possible. Vaccinate also, all the members of his family, and of the household in which he lives.

As to the question of quarantining a person who has been exposed to smallpox.

If he is a transient, and has not a certificate of recent successful vaccination keep him under close quarantine.

If, on the other hand, he is a permanent resident and trustworthy, and has not had an intimate association with an infected case, vaccinate him, disinfect his person and clothing and keep him under observation.

If, again, any transient can prove to the medical man in charge that he has been successfully vaccinated within the past two years, and can show that such vaccination was successfully effected in not less than three points (three scars), such person, if considered trustworthy, may be discharged and allowed to proceed, on condition:

1. That he states where he is to reside during the next sixteen days;

2. That he undertakes to consult a doctor, and gives him full history of exposure to smallpox, on the very first indication of illness.

Persons who have been exposed to smallpox should be considered under two classes:

1. Those who have been exposed but once to the infection, and are immediately vaccinated. These should be kept under observation until there are unmistakable evidences of the success of the vaccination, when they can be discharged from further surveillance.

2. Persons who have been exposed to smallpox, and several days (over four) have elapsed before vaccination. These should be kept under observation for sixteen days, from their last possible exposure. The wearing of their own possibly infected clothing should be deemed a continuation of exposure.

Vaccination.

In the vaccination of persons who have been exposed to smallpox "time is money." The failure to effect prompt vaccination sometimes costs individuals and municipalities much money.

Prompt vaccination is required for the exposed person, so that the vaccination may get ahead of the smallpox and modify it or prevent it entirely, and for the persons housed or associated with him the aim should be the speediest possible "cure," so that these persons may be fully protected if the person already exposed develops smallpox.

If, after reasoning with them, suspects refuse to be vaccinated, apply an absolute quarantine just as long as may be necessary.

Quarantine.

The quarantine of every smallpox patient should be prompt and absolute. A guard should be placed over every infected house day and night, and special visits should be made at unexpected hours to see whether the guards are doing their duty.

When it is known that persons have been exposed to smallpox, officers should promptly arrange for the worst. Facilities for quarantine and treatment should be considered. Nurses and medical attendants should be arranged for, and, if possible, conditionally engaged. For nurses, have persons who have had smallpox, or who are thoroughly protected by recent successful vaccination (three or four scars).

Hospitals and Camps.

When smallpox breaks out the question will often arise whether the sick shall be kept and cared for in their own houses or removed to other quarters. When at all practicable to do so their removal should be ordered, and the houses from which they are taken should be disinfected without delay.

When a house is not available as a hospital, a temporary camp or shed may quickly be built. During the summer months a tent, or a number of tents, will answer the purpose.

Persons who have been exposed to smallpox, and persons who show uncertain symptoms, should not be confined with smallpox patients.

The disinfection of infected houses or rooms should be left to experts, or else done under the direct supervision of a doctor.

Formaldehyde is the surest and least objectionable disinfectant. Compared with sulphur it is a more efficient germicide, it is not poisonous, it does not escape from rooms so rapidly, it does not injure articles of furniture, etc., and it has greater power of penetration. The more tightly the rooms are made to prevent the escape of the gas, the more penetrating will be the power of the formaldehyde.

Brief Points for Non-Medical Members.

The period of incubation of smallpox, usually, time from entry of disease into the system to the first symptom, is twelve to

fourteen days. It may be longer or shorter. In from about 48 to 60 hours the eruption begins to show as small red specks and then as pimples or papules, at first on the forehead and wrists, gradually extending over the body so that the eruption becomes general in about 24 hours. From the second to the fifth days of disease (counting from the first symptoms) the eruption is papular and the characteristic "shoty" sensation is obtained by passing the fingers over the skin. During the next 24 hours the papules become vesicles. Vesicles are watery blisters containing clear fluid on their summit. The next change is that the vesicles become pustules by becoming yellow, they now contain pus or "matter." The pustules soon present a slight depression in the center, that is, they are "umbilicated." The fever having declined when this eruption first appeared, now rises again. Severe pain in the small of the back is somewhat characteristic of smallpox.

In modified smallpox, or in mild epidemics, the eruption aborts at various stages or passes rapidly to the pustular stage and very mild constitutional symptoms are present.

Smallpox is intensely infectious at all periods of the disease, but less so at the early stages than when the scabs are peeling.

The United States Marine Hospital Service have issued the following maxims which you would do well to bear in mind:

"Smallpox cannot be expressed without the expenditure of money." "The more promptly you act the less it will cost." "When in doubt act on the safe side." And, finally, isolate, vaccinate, disinfect.

RE TUBERCULOSIS.

1. Whenever any physician knows or suspects that any person whom he is called upon to visit is infected with or believed to be infected with tuberculosis, he should immediately notify the medical health officer, and give an account of the condition of patient and state what precautions are being taken to prevent infection.

2. Whenever any household knows or suspects that any person within his family or household has tuberculosis, he shall immediately give notice to the medical health officer.

3. Whenever any teacher in any school has reason to suspect that any pupil is suffering from tuberculosis, he shall notify the medical health officer immediately, and may prevent the attendance of such pupil until medical evidence is produced that such pupil is not suffering from tuberculosis, or any form likely to be infectious.

4. Whenever any superintendent, or person in charge of any hospital—public or private—asylum, gaol, orphanage, "home," convent, or private school, knows or suspects that any inmate of such hospital, asylum, gaol, orphanage, "home," convent, or private school, is suffering from tuberculosis in any form, he shall immediately notify the medical health officer.

5. If municipalities or districts where no medical health officer has been appointed, notification should be sent to the secretary of the provincial board of health.

Medical Health Officer.

6. "Medical Health Officer" shall mean and include the medical health officer appointed under the provisions of the "Health Act," to act within the limits of the jurisdiction of any local board or health district.

7. The medical health officer shall, within forty-eight hours after notice in writing to the secretary of the provincial board of health of every case of tuberculosis reported to him, and shall state as nearly as possible the condition of patient, and what precautions are being taken to prevent infection.

8. In case the medical health officer is not satisfied with the report of the physician in charge, he may demand a fuller report, and in the event of his still being dissatisfied he shall visit the patient and satisfy himself that all necessary precautions are being carried out.

9. In case where the medical health officer and attending physician disagree as to precautionary measures, the matter shall be referred to the provincial board of health for final settlement.

10. Whenever a case is reported as not being under the charge of a physician the medical health officer shall forthwith visit such case and instruct the patient as to necessary precautions against general and self infection.

11. Whenever the medical health officer or the physician in charge considers that a house or any part of a house is infected with tuberculosis, he shall order said house or part of house to be disinfected in accordance with instructions issued by the provincial board of health.

12. In all cases of death from tuberculosis the rooms or house occupied by deceased shall be disinfected to the satisfaction of the medical health officer, or the secretary of the provincial board of health or his deputy.

13. Whenever a case of tuberculosis is reported from a hotel or boarding house, the medical health officer shall visit the patient while residing in said hotel or boarding house, once a week, or as often as the secretary of the provincial board of health may direct.

Spitting in Public.

14. Inasmuch as spitting is purely a matter of habit, and is offensive to many, and is often very harmful and a fruitful means of carrying disease, it is hereby declared unlawful to spit in any care, railway cars, or other public conveyances, or on sidewalks, or on floors and other parts of public buildings.

Tuberculous Milk.

15. Inasmuch as tuberculous milk is a most fruitful source of consumption, it is hereby declared unlawful for any person to sell milk unless he has a certificate, of date not later than six months, from the provincial veterinary surgeon that the cows from which such milk comes are free from tuberculosis. Such certificate may be demanded by any customer, or medical health officer, sanitary inspector, secretary of the provincial board of health or his deputy.

Disinfection.

16. Whenever it appears necessary or advisable to the medical health officer to have any house, hotel, boarding house, hall, theatre, car, railway car, or other public conveyance disinfected, he may order same to be done and at the expense of the owners.

Penalties.

17. Any person who violates any provision of these regulations shall be liable, upon summary conviction before any police or stipendiary magistrate, or before any two justices of the peace, for every such offence, to a fine not exceeding one hundred dollars, with or without costs, or to imprisonment, with or without hard labor, for a term not exceeding six months, or to both fine and imprisonment in the discretion of the convicting court.

If you take a Lax-Liver Pill at night before retiring, it will work while you sleep without a gripe or pain, curing biliousness, constipation, dyspepsia and sick headaches.

## ASTHMA CURE FREE

Asthmalene Brings Instant Relief and Permanent Cure in all Cases.

SEND ABSOLUTELY FREE ON RECEIPT OF POSTAL. WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails. The Rev. C. F. Wells, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken your word, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

REV. DR. MORRIS WECHSLER, Rabbi of the Cong. B'nai Israel, New York, Jan. 3, 1901.

Dr. Taft Bros' Medicine Co., Gentlemen—Your Asthmalene is an excellent remedy for Asthma and Hay Fever, but its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or other very truly yours,

REV. DR. MORRIS WECHSLER.

Dr. Taft Bros' Medicine Co., Gentlemen—I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I changed to see your sign upon your windows on 134th street, New York. I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease. Yours respectfully,

O. D. PHELPS, M.D.

Dr. Taft Bros' Medicine Co., Gentlemen—I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. I trust money you can make such use of as you see fit.

## Provincial News

## TRAIL.

Joseph T. Hall, a young man employed in the car shops on Smelter hill, met with a serious accident on Sunday, November 10th, which may result in the loss of a leg. The unfortunate young fellow was riding on the footboard of the engine as it was being shunted into the roundhouse, when in some way the door closed and caught him. He was taken to the hospital, where every effort has been made to save the limb, and thus far there is no certainty that he will lose it.

## NANAIMO.

The coroner's jury in the matter of John Rosenbloom's death brought in a verdict that deceased came to his death by his own hands by hanging himself. Rosenbloom was a native of Stockholm, Sweden, and was well educated.

The miners employed in the mines of the Wellington Colliery Company have taken initial steps towards organizing along the lines suggested by Mr. Dunsmuir for providing for life insurance. A scheme was proposed by the Extension miners on Saturday, and a committee consisting of Messrs. Sheppard, Shaw and Caniffie was appointed to confer with committees from other mines of the company. According to the suggestion of Mr. Dunsmuir, part of the wages would be kept back from each man to

form a fund from which insurance would be drawn.

Provincial officers in the Kalkanen Kansa Colonization Company have been elected. Matti Kurikka, the president, will visit different places in the near future to get residents for Malcolm Island. The colonists must be shareholders. The shares are \$200 each, payable on easy terms. Preference will be given to Finlanders in making a choice.

## NELSON.

Robert Roberts and Miss Mary Ellen Jerome were married in St. Saviour's church on Wednesday by Bishop Dart. The bride is the daughter of Thomas Jerome of this city and the ceremony was attended by a large number of her friends.

One shipment reported outward through the customs port of Nelson for the week are: Lead—bullion, 60,080 pounds, value, \$8,175; galena—ore, 60 tons, value \$8,223; gold, 870 ounces, value \$10,745.

## GREENWOOD.

Starting on Friday a new departure was made in the matte shipments from the local smelter. Heretofore the matte has been sent direct to New York for refinement and sale. Now the output will be sent to the Granby smelter at Grand Forks, where a converting plant has been installed. Paul Johnson, manager of the smelting department of the British Columbia Copper company, and W. H. Thomas, of New York, consulting engineer, have returned from Grand Forks after completing negotiations. The local plant produces some 20 to 25 tons of matte per day, and this amount will

be doubled early in January, when the second furnace is installed.

D. R. Young, manager of the Similkameen Valley Coal company; C. B. Murray, of the firm of Hall & Murray of Toronto, and W. Blakemore, mining engineer, have returned from Ashcroft after examining the coal measures owned by the company. Mr. Blakemore's report will not be ready for publication until the coal samples are analyzed at Trail. It is expected that the report will be favorable. Meanwhile the company will install a core drill to test the seams at depth.

## VANCOUVER.

Albert E. Eby, clerk in the San Life office here, left suddenly for Seattle on Saturday night. He is alleged to be several hundred dollars behind in his accounts. Eby is a son of the former pastor of Homer Street Methodist church, now of Toronto.

Joe Mattingly will stand trial for attempting to set fire to a house on Dupon street.

The body of George St. Pierre, a logger, was brought from Rock Bay on Saturday on the steamer Comox. He had been drowned in Rock Bay from a canoe.

Rogers, charged with manhandling Japanese fishermen, has been released on bail.

Provincial Fruit Inspector Cunningham and Dominion Officer T. Wilson, who operates the fumigation station, have engaged in a controversy over their methods. Cunningham has condemned Oregon fruit trees passed through fumigation by Wilson, and the latter has appealed to the Ottawa government, stating that Cunningham is in the wrong.

Severe storms are reported up the coast. Two booms of logs were lost on Friday and Saturday.

Prisoner West yesterday attacked Jailer Grady in the police station cell and inflicted an ugly wound on the head with a nail before assistance came.

## YOU CAN MAKE

## HANDSOME MATS AND RUGS

At a Small Cost That Will Outwear Expensive Imported Goods.

The making up of pretty mats and rugs in the home is a work that is attracting widespread attention. Women of every social position are cultivating the art and making up artistic creations that compare favorably with expensive imported goods. Thousands of women point with pride and pleasure to their handmade mats and rugs. If your dry goods dealer has not yet put in a stock of these new patterns for your convenience, send your name and address to The Wells & Richardson Co., Limited, 200 Mountain St., Montreal, P. Q., and they will send you postpaid, sheets of designs to select from. Like the Diamond Dyes, the Diamond Dye mat and Rug Patterns are the best in the world.

## Mining News

## Southeast Kootenay.

The shaft at the St. Eugene is now down about 140 feet. A number of men were laid off during the past few days.

A number of men are steadily at work developing the Aurora. They are sinking on the ore body, and they intend to stay with the property which they expect in time will rival the St. Eugene.

The Farrell brothers are at work on the Society Girl. They recently put in a pump and are now engaged in sinking. They have a good mine which is being developed, and the results are most encouraging.

Several mining deals of considerable importance are on the tapis, and there seems to be no doubt but what they will go through. A Spokane syndicate is figuring on an iron proposition and several other properties. Montreal people are on another, and an English corporation on a third. An expert from the Old Country is expected here in a short time to look over the big iron deposits of this district. It is said that a company is being formed to take over a property on Alki creek. The outside people are beginning to recognize the fact that the Fort Steele district contains valuable deposits of mineral.—Fort Steele Prospector.

## The Lardue.

Robt. McCord, part owner of the I. N. L., has disposed of his interest in the property to W. Milloy, of Roseland, for a good figure. This property, which is situated at the head of Eight Mile creek, is one of the most promising in the district.

The Horseshoe has been worked pretty steadily during the past summer, and something in the neighborhood of ten tons of ore has been taken out during the course of the summer operations only. The ore of this property is phenomenally rich, and tests of a recent date give returns of 3,025 ozs. silver, or a value of \$1,810 to the ton.

On the Ruffed Grouse work has been prosecuted steadily all summer, and the results are that three horses are kept busy from day to day packing out the ore, which is being taken down and sacked. A shipment of several tons will be made this fall, and as the ore here is heavily impregnated with gray copper and black sulphate it is expected that the returns will rival those of the Tribune. The ore is being very carefully sorted and those who have seen the mineral being sacked predict that the returns will be ample to pay for all past development besides leaving a tidy sum for the prosecution of further operations.

A. H. Grady, of the Imperial Development Company, has arrived at Caribou from the south to visit the company's property on Fish creek. He was much pleased to find that the lead had been recovered, and it is now the intention of the company to increase its force during the course of a couple of weeks and pursue a course of vigorous development during the winter months.

The cabins on the Camborne group are now completed, and it is the intention of the company to erect another one on the Morning Star, near the trail at the crossing on Menhaden creek. The company also intends letting a small contract on the

Oyster group in addition to the one already let.

Mr. Darragh came down from the Wide West, on Pool creek, and reports the contractors making good progress, although the rock is a great deal harder than at the first—Trout Lake Tropic.

## WHIST.

## WILL PLAY TO-NIGHT.

The J. R. A. A. regular weekly whist tournament will be played this evening, commencing at 8:15 o'clock.

## THE OAR.

## HENLEY OPEN TO ALL.

Toronto, Nov. 18.—The Evening Telegram's London cable says the proposal to bar foreigners and Canadians at Henley regatta was badly defeated. The vote was 99 to 37 in favor of accepting foreign entries.

## THE RING.

A GOOD FIGHT PROMISED FOR THURSDAY.

Those who have seen Hawkins and Denny, the two lightweights who box at the Philharmonie hall on Thursday night, at practice, are confident that they will provide an exhibition which will be a most interesting exposition of the many-art. Hawkins is taller than his antagonist and has a Sul-Ivan slender build, but his opponent, while much smaller, is very adroit, and has as pretty a style as has ever been seen here. The exhibition will be a ten round one of three minutes each.

Martin Denny was born in Australia, of English parentage, and his record has been a remarkably successful one. In his native country he defeated Nipper Peakes in 10 rounds; Pat. McShane, 8 rounds; H. Woods, 10 rounds; E. McNeill, 4 rounds; Billy Mateer, 4 rounds; Sam. Baxter, of England, 25 rounds; Sandy McGregor, 23 rounds; E. Jackson, 8 rounds. He drew with Tom Duggan, in 9 rounds, and also with Grillo, in Sydney, in 25 rounds; four thousand people witnessed this contest.

In the Old Country he beat Billy Eyles in 20 rounds at the National Sporting Club, London; Jack Lambert in 20 rounds at the National Sporting Club, London; Jack Gamble in 7 rounds at Manchester; Pat. Scully in 20 rounds at Dublin, Ireland.

His triumphs in America so far have been as follows: Sammy Maxwell, 20 rounds; Sam. Lawrence, Jimmy Lawler, 10 rounds; Sam. Lawrence, Jimmy Lawler, 10 rounds; Sam. Lawrence, Jimmy Lawler, 10 rounds; Mickey Welch, 15 rounds; Tacoma, Wash.; Chester Levere, 15 rounds; Tacoma, Wash. He lost the decision in 20 rounds to Spiller Kelly, Seattle; and also after 20 rounds to Toby Erwin. Twenty rounds, a draw, with Dal. Hawkins, Grand Forks, B. C. He beat Jimmy Reilly in 20 rounds at Portland. One, Billy Wright in 15 rounds at Astoria; and Tommy Cox in 6 rounds at Astoria.

Of the houses in Paris, there are still 10,000 (with 200,000 inhabitants) that use well water.

## Seal Brand Coffee

(1 lb. and 2 lb. cans.)

Because of its ABSOLUTE PURITY Dyspeptics drink it fearlessly. It tones and strengthens the stomach.

Imported,  
Roasted and  
Packed by

CHASE & SANBORN,  
MONTREAL AND BOSTON.

## PASSENGERS.

## EVERY MOVE CAUSED PAIN

The Intense Suffering of a Perth Man Relieved and Cured by Dr. Pitcher's Backache Kidney Tablets.

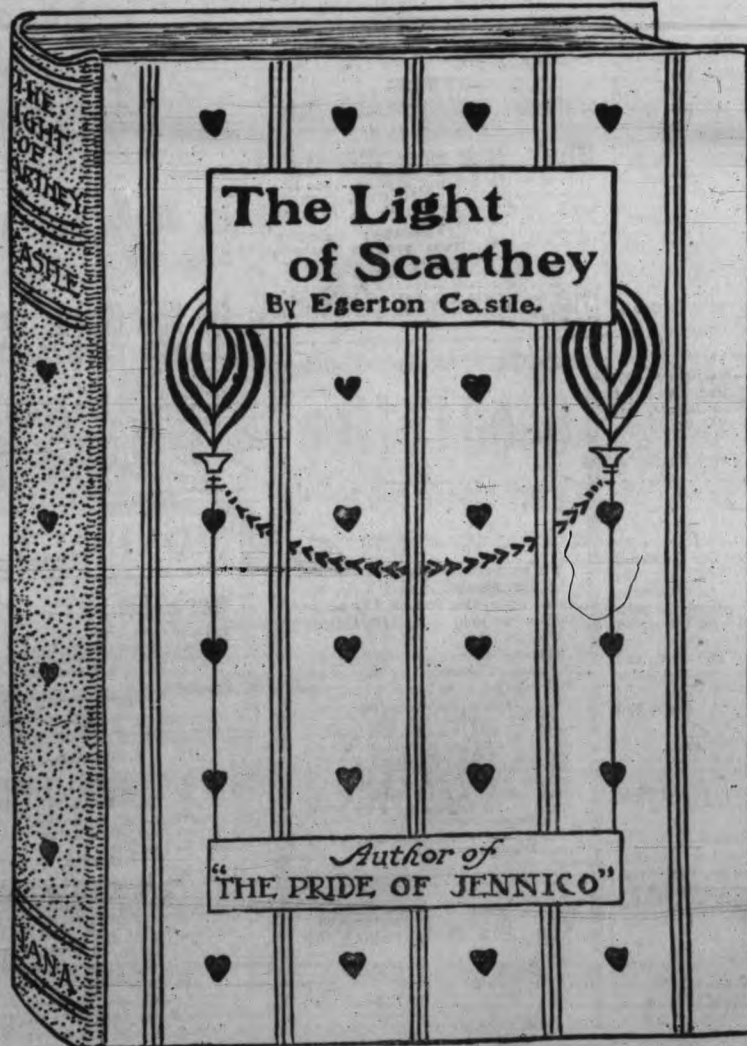

The terrible pain that catches you in the back—makes stooping over or rising up, or moving about even, unbearable. In nine cases out of ten it is traceable to disordered kidneys.

The pain in the back is the kidney's signal of distress. Go to their assistance with Dr. Pitcher's Backache Kidney Tablets. They will promptly relieve the pain, cure the kidney, trouble and restore your health and strength.

Here is a case worth reading: Mr. Alexander Montgomery, Peter street, Perth, Ont., when interviewed made this statement: "I was suffering acutely in my back when I began using Dr. Pitcher's Backache Kidney Tablets, procured from F. L. Hall, the druggist. I could lift nothing, every move caused pain. There was neither strength nor energy left in me. The constant aching over my kidneys was most depressing. I started using the Tablets and the lumbar quickly began to let up. I am quite over it now. I have found them most satisfactory and can confidently recommend them for bad backs." Dr. Pitcher's Backache Kidney Tablets are 50 cents a box at all druggists. The Dr. Zina Pitcher Co., Toronto, Ont.

## A Sacrifice of Royalty

Formerly \$1.25  
Now 25c a Copy.

A sacrifice of royalty! that is the secret of the great book distribution which will make the opening year of the new century memorable to lovers of good literature.

The most famous authors of the period and their representative publishers have agreed to sacrifice their royalties and profits on a single representative work for a single time for the sake of the immense interest and the reading of their works.

The book buyer reaps the benefit. The choice of 40 great \$1.25 novels at 25 cents each is the offer now made to the readers of this paper. The books are printed directly from the identical plates of the \$1.25 and \$1.50 editions, on fine paper, fully covered by the original copyright, and handsomely bound in art cloth covers.

Four new books are brought out each week.

## The Light of Scarthey

BY EGERTON CASTLE.

(Author of "The Pride of Jennico," "The Loves of Sir Adrian Landale." This is a thriller among adventurous romances.)

## A Puritan's Wife

BY MAX PEMBERTON.

(Author of "The Garden of Swords," "Strange adventures of a Roundhead after the Restoration—the days when grass grew in London streets.")

## Book Voucher.

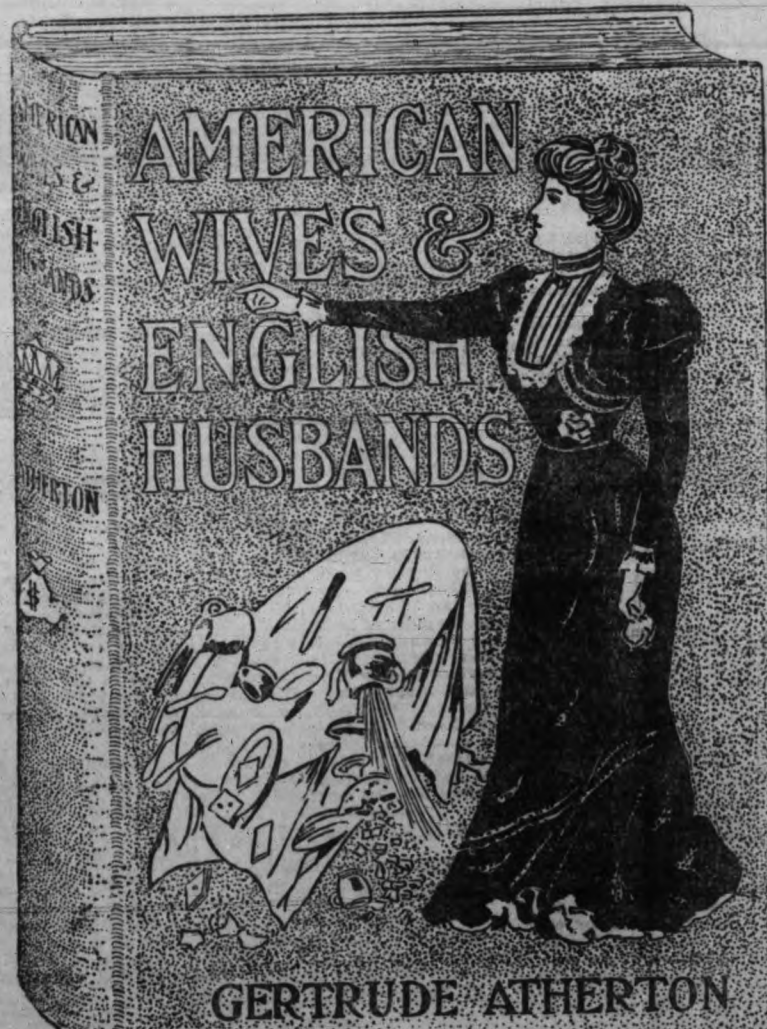

Put cross before names of books wanted. OFFERING THIS WEEK.

- ( ) The Light of Scarthey BY EGERTON CASTLE
- ( ) A Puritan's Wife BY MAX PEMBERTON.

Already offered:

- ( ) "SIMON DALE"—Anthony Hope
- ( ) "A FAIR BARBARIAN"—Frances Hodgson Burnett.
- ( ) "THE GREAT K. & A. TRAIN ROBBERY"—P. L. Ford.

## THE STORY TELLER ALSO COMMITTED

### KATCULES GOES TO A HIGHER TRIBUNAL

**Counsel for Defence Made Vigorous  
Fight for Dismissal—Chief of  
Police Gives Evidence.**

George Katcules, the Greek charged with being an accessory after the fact of the murder of Tom Notes, was this morning committed for trial by Magistrate Hall. The case for the prosecution was conducted by Deputy Attorney-General H. A. McLean, while S. Perry Mills defended the prisoner.

The defence called no witnesses, but nevertheless put up a vigorous fight for dismissal, counsel quoting authorities galore to show that when the sloop left the harbor early Friday morning no crime had been completed, as Notes did not die till some time subsequently. Consequently it could not be held that Katcules, not being aware that a crime had been completed, was an accessory after the fact. Only three witnesses were examined, Capt. Babinington, Chief of Police Langley and Detective Palmer.

The first named, being sworn, gave evidence as to finding the sloop about half a mile off Williams Head on Saturday, the 9th, about 6:20 a.m. The sloop was nearly full of water, and had a hole in her bottom, doubtless effected with an axe, which was found in her. He towed it to the pilot cutter in a bay near by, and after bailing out the water and making repairs, he started to tow her to Victoria. There was nobody aboard the sloop when it was found.

Cross-examined by Mr. Mills—The water was quite clear on that morning. The weather was fine on the two preceding days. It took him about an hour to repair the craft, and on route in was overtaken by the Earl at Albert Head. He was charging \$75 for bringing her in. Re-examined by Mr. McLean—There was a small coal oil lamp in the cabin and the windows on both sides were covered by sacks. The hole in the bottom was probably produced from the inside by the axe, which was found on board. He did not know the value of the sloop—could not say what it would bring at auction.

John Langley, chief of police, the next witness, swore that he first saw the accused, Geo. Katcules, on the morning of the 9th, about 10:15 o'clock. When he entered the police station Constable Wood observed: "Here is the man who was in the boat with Nicholas." Witness asked the man: "Do you know that Notes is dead?" and the accused replied in the affirmative. He was not under arrest at the time, and came to the station voluntarily.

Mr. Mills at this juncture objected to the admission of this evidence, on the ground that his client had been cautioned. The onus of proving that Katcules's statement was voluntary rested with the Crown.

Quite a verbal combat here ensued, but the magistrate expressed the opinion that the Crown had satisfied the onus.

Under cross-examination by counsel for the defence, the chief said that the information against Katcules was laid on the night of the 10th, Sunday, at 9 o'clock. He came to the police station on the morning of the 9th, Saturday. Witness had given the police no instruction to arrest other than Nicholas, and he had no intention of prosecuting the accused until Sunday night, after having had a conversation with him.

Question—So you listened to everything he had to say in order to use it against him?

Answer—I found that he had deceived us all the time and that it was my duty to arrest him.

Continuing, the chief said that he did not consider it necessary to caution the man when he questioned him upon his arrival at the police station, as he was merely desirous of acquiring information regarding the fugitive. When the accused told him the story witness had not the slightest idea of arresting him.

This concluded Mr. Mills's cross-examination on this point. The magistrate ruled that the Crown had satisfied the onus regarding the admissions made by the accused. Mr. Mills objected to the ruling and his objection was noted.

In resuming his evidence the chief said that Katcules told him when he first arrived at the station that he had heard of Notes's death a short time previously. He knew nothing about Nicholas. The latter, he said, had come down to the boat about 1 o'clock, cut the anchor rope and headed out of the harbor. The accused said he was asleep at the time, but when roused by Nicholas was told that they were going out to catch herrings. They pulled out Friday night 10 o'clock, when they reached Morehead Island, remaining there until 4 p.m. They reached Sidney at midnight, when Katcules claimed he was ordered to go ashore by Nicholas.

Witness asked him if such an order did not strike him as queer, but the Greek replied: "Oh, no, he didn't think anything." The Greek subsequently told witness that he landed at Cedar Hill, walked all night, and after finding the road came to town. Here he learned that Notes was dead, so he came to the police station.

Witness again saw the accused in the

afternoon and warned him to tell the truth, formally cautioning him at the time.

Accused then said: "I'll tell the truth." Throwing up his hands as he did so. He then said that Nicholas came to the boat between 12 and 1 o'clock, cut the lines, and locked him in the cabin, where he was kept all day. They arrived at Port Angeles spit at 4 o'clock in the afternoon, where Nicholas landed. Before leaving the boat, however, the fugitive Greek threw overboard a long knife. He instructed Katcules to take the boat and go anywhere he pleased. The latter headed across, scuttled the boat and walked in from Albert Head. Nicholas, he said, had told him to tell anybody who inquired that he had gone to the American side.

In the afternoon witness told Katcules about the finding of the boat off Williams Head, and that the driver of the Rocky Point stage had identified him as the man he dived in that morning. He again saw Katcules, the accused, on Sunday night, and the latter appeared worried. He said: "Chief, now I'll tell you the whole truth." He then said that Nicholas came to the sloop between 12 and 1 o'clock, headed out of the harbor and got to Albert Head. Nicholas told him that he had had a fight with another man and had used a knife, but he did not know how badly he had hurt him. They stayed at Albert Head until 4 o'clock, when Nicholas told him to take the boat anywhere he pleased.

Witness here remarked that when Katcules was telling him this story he was evidently aware that Nicholas had been arrested, owing to the stir and bustle that had been heard down stairs.

Cross-examined by Mr. Mills—The information was sworn out against Nicholas on Monday morning. The information against the accused was sworn out about the same time. Witness could not say what times Notes died, except from information received. He was not present. Neither could he say, except from information received, when the sloop left the harbor. He was not looking for Katcules on the Friday.

Question—Would you be surprised to learn that the accused was walking on Government street Friday morning?

Answer—I would not be surprised at anything he did or said.

Continuing, the chief said that he told Katcules to remain at the police station after talking to him on the morning he returned.

He did not think it necessary to caution him then, neither did he take the man in custody until 2:30 o'clock.

Question—What was done with him after you left; was he left in the office?

Answer—He was afterwards placed in the lockup.

Question—Did you feed him like the other prisoners?

Answer—I didn't starve him. I believe he was fed like the others.

In the afternoon the witness said he cautioned Katcules several times.

Detective Palmer gave evidence regarding taking possession of the sloop on the morning of the 9th. There was a license aboard showing Frank Nicholas to be master.

This closed the case for the Crown. After formally cautioning the accused, the magistrate asked him if he had anything to say, and the latter replied that he was "not guilty."

Mr. Mills, for the prisoner, asked for a dismissal. The prosecution had certain evidence in its favor, but the first case it must prove that the crime had been completed; secondly, that his client was aware of it. There was, he pointed out, no legal obligation on any man to disclose a crime. There was no evidence to show the time of death, and in order to prove his client an accessory after the fact of murder, it must be shown that he knew a criminal act had been committed and death followed.

Counsel then quoted Craikshaw and other authorities, and pointed out that inasmuch as the sloop left the harbor about 12 and 1 o'clock, and Notes did not expire until nearly 2, it was apparent that Katcules could not be considered an accessory after the fact of the murder. Furthermore, in a case of justifiable homicide or where a plea of self-defense was made there could be no accessory after the fact. If a jury were to convict his client of this crime he would be getting the principal acquitted, the acquittal would be operative in both cases.

Mr. McLean agreed that up till the time of death there was no accessory, but he pointed out that after death, if the accused had assisted Nicholas to escape, knowing that the crime had been completed, he was an accessory. The accused came to the police station on the morning of the 9th and had heard of the death of Notes. Nicholas had also told him that he had stabbed a man, and therefore Katcules must have connected these two facts and known of the completion of the crime. But after that by his stories he rendered the most material assistance, and had it not been for stories told by Katcules his effort to throw the police off the scent.

The magistrate said that he had no difficulty in dealing with this case. The authorities cited by Mr. Mills, with the exception of Craikshaw, had no bearing on the case. On the three essential points the evidence established a prima facie case. The offence was complete, the accused had knowledge of it and assisted Nicholas to escape. He therefore committed Katcules for trial.

### DIAMOND PINS FOUND.

Formed Part of Collection Stolen From Portland Hotel on Saturday.

(Associated Press.)  
Portland, Ore., Nov. 19.—Seven diamond stick pins, valued at about \$200, were picked up on Park street, and have been identified as part of the \$10,000 diamond collection stolen on Saturday night from Mr. Lowenthal's room at the Portland hotel. No arrests have been made.

## CORWIN CHARTERED FOR FISH TRADE

### VESSEL PROCEEDS TO NANAIMO FROM HERE

Secured For Six Months' Service—Tug  
Hope Reported to Have Lost  
Part of Boom.

This evening, or some time to-morrow, just as soon as preparations can be perfected, the steamer Corwin, the old United States revenue cutter, which, since her repairs in port several months ago, has been lying in the upper harbor, goes out under a six months' charter to Capt. A. R. Johnson and his Nanaimo associates in the halibut business. Details of the enterprise have already been published in the Times. It was announced at the time the company had the Corwin in view, but that on looking over the San Francisco field a more suitable vessel had been secured. This, however, proves not to be the case. Negotiations for another steamer were employed, but not materializing, the Corwin was taken. The company will conduct its business from Nanaimo, and will obtain their fish supplies from the halibut grounds in Hecate Straits. The Corwin is a large vessel of greater tonnage than any craft heretofore employed in the industry, and her operations will be a valuable asset to the business of that port. She will be commanded by Capt. West, who, with a crew, have already taken charge and are getting the ship in readiness to sail.

### SEALERS' ASSOCIATION.

The general annual meeting of the Victoria Sealers' Association is being held this afternoon. The meeting was convened at 3 o'clock, but an adjournment will, it is expected, be taken till the 20th of next month, by which time the big London sales will have taken place, and it will be known what financial result the season will have for the association. Lamson's sale of fur takes place on the 16th of next month, which date has also been fixed, it is understood for the H. B. Co.'s sale. In these sales all the skins, excepting those taken by the C. D. Band, representing the catch of the Victoria schooners, will be placed on the market, and when it is known what prices they bring the association will be in a better position to discuss their plans for the ensuing year.

### CLAIM FOR SALVAGE.

Along the waterfront to-day there is considerable speculation on the amount which the captain and crew of the steamer San Mateo is likely to get out of the salvage allotted that vessel for coming to the rescue of the steamer Victoria. The owners of the San Mateo, the Pacific Improvement Company, got the Southern Pacific as has been stated, have been notified of the facts and to-day the captain of that ship is in the city awaiting instructions as to his course in the matter. He hopes that the case will be settled out of court and states that an effort will be made in this direction.

### ACCIDENT TO HOPE.

A report has reached the city of an accident having befallen the tug Hope on her last trip from the logging camps. According to the report the steamer lost half a boom she was taking to Everett in the big blow-off last week. At the office of the steamer in this city nothing, however, had been heard of the accident, and the story is therefore only given for what it is worth. The Hope on this voyage is commanded by Capt. Harris, who, until recently, was in the sealing business.

### SALTED SALMON.

There is now awaiting shipment at the outer wharf 550 cases of salted salmon, which is to be forwarded to Japan by W. A. Ward of this city. The consignment, together with 400 more cases to come from the Great Northern cannery and 750 cases to come from Skidegate, Queen Charlotte Island, will be shipped from here on the steamers Glenora and Glenishiel, both of which sail on or about the 6th of next month. The Glenishiel is one of the round-the-world liners, and after leaving Victoria will proceed direct to Japan, thence to Hongkong, Ma-

nila, Singapore and England. She will be the second of this fleet to call at the outer wharf.

### MARINE NOTES.

On the return from church last Sunday Major J. G. E. Wynne, commanding the Royal Garrison Artillery, presented to the Commandant Major W. Jones, of No. 19 Company, Western Division Royal Garrison Artillery, with the "medal for long service and conduct." This medal carries with it a gratuity of £5 on discharge to pension. It is estimated that the steamer City of Peking will be ten days in the dock at Esquimaux. Work on the steamer was commenced this morning, and will be carried through to completion with all possible dispatch. The contract price is said to be in the neighborhood of \$4,000.

Capt. Geo. Roberts, formerly of the steamer Rommie, purposes taking a respite from his navigation duties this winter. He has been succeeded on the R. C. Hunter remains in command of the Dolphin on the Alaska run.

H. M. S. Warspite left Esquimaux harbor this morning carrying out big gun practice, returning this afternoon on completion. Major Wynne and officers of Royal Garrison Artillery being on board by invitation to witness the firing.

The cargo of the ship Greia, which arrived here from Cardiff on Sunday, consists of patent fuel which has heretofore been experimented with on this coast and been found to be of a very inflammable composition.

Steamer Walla Walla is due from San Francisco to-morrow morning, while the City of Peking will be due to sail for the Golden Gate to-morrow evening.

The steamer Charming will arrive on time this evening. She left Vancouver at 1:25, after connecting with the Eastern train.

A schooner and barkentine were reported passing Cape Horn Point, inward bound, at 9 o'clock this morning.

Dodwell & Co.'s steamer Victoria will be here to-morrow on her way to the Orient.

### TRADE OF SIBERIA.

Correspondent Says Most of It is in Hands of Americans and Germans.

(Associated Press.)  
New York, Nov. 19.—A dispatch to the Tribune from London says: "The correspondent of the Daily Mail in Vladivostok has discovered that there is no English consular there, so he called upon the American representative, Theodore Greener, whose position is that of commercial agent for the United States. Mr. Greener informed him that besides Americans, French, German, Holland and Japan were commercially represented. Americans and Germans, he went on to say, had most of the trade."

"No man," writes the correspondent, "can come through Siberia to such a place as Vladivostok and give thought to what Russia has done in a generation without being amazed. England may criticize Russian manners and growl at Russian diplomacy, and wonder how people can live under an autocratic government, but Russia has laid hold of the East."

### THE CANAL TREATY.

London Globe Is Not Pleased With the Hay-Panama Convention.

(Associated Press.)  
London, Nov. 19.—The Globe this afternoon discusses the Hay-Panama Convention in its usual ultra-jingo tone. It says: "Unless Lord Panamafete and Secretary Hay have strictly observed the principle of quid pro quo, the treaty is far more likely to impair than to strengthen friendliness. If British rights on the Isthmus have been abandoned without a tangible equivalent, it will not be long before Great Britain will be invited to surrender the West Indies and even Canada as peace offerings to American chauvinism."

### SHOT BY A WIDOW.

Trouble Over Farm Led to shooting—One of Victims May Die.

(Associated Press.)  
Creston, Iowa, Nov. 19.—Mrs. Chas. Edwards, a widow, living 3 miles west of here, early to-day shot Andy Neary, colored, and man James, white, whom she avers were attempting to prevent her from occupying a leased farm where the shooting occurred.

Nearly any die, but James is not seriously hurt. Mrs. Edwards and her children were ejected last Friday, and Neary and James were put in possession. According to James, Mrs. Edwards came to the house and asked feed for her poultry. She was permitted to enter the house, whereupon she drew a revolver and ordered the men throw up their hands. Neary attempted to run, and the woman shot him through the body. James then tried to escape, and Mrs. Edwards fired the contents of a shotgun after him without serious effect. The woman is in possession of the premises, and the sheriff has left for the scene.

### FIGHT WITH BANDITS.

Chinese Soldiers Killed Twelve and Captured Fifteen Near Peking.

(Associated Press.)  
Peking, Nov. 19.—Fifty Chinese soldiers surprised 150 bandits close to Peking last night, killed 12 of them and captured 16. The prisoners have been brought here for decapitation.

### ICE COMBINE.

(Associated Press.)  
Winnipeg, Nov. 19.—Another step has been taken in this age of industrial combinations and from now on the people of Winnipeg will receive their supply of ice from one company, and not from three as heretofore. The combination as it now stands will consist of the Arctic Ice Co., the Winnipeg Ice Co. and the Northern Ice Co. all under the direct management of Charles H. McNaughton, formerly manager of the Arctic Ice Co.

"An elegant line of furniture is being opened up by Weller Bros. Now is your chance of getting something particularly nice for Christmas. We will 'soak' them at 'not so high' prices as usual."
